    - Environmental

Economic Resilience	
Economic Diversity	
Entrepreneurship	
Active economy	
Economic growth	

# The Regional Resilience Framework provides data-driven answers:

- Resilience and vulnerability dimensions:
  - Social
  - Economic indicators:
  - Infrastructure
  - Environmental

	<b>Economic Vulnerability</b>
	Reliance on natural resources
	Economic hardship – cost burdened
	Economic hardship – unemployment
	Potential tax shortfalls (business vacancy rate)

# The Regional Resilience Framework provides data-driven answers:

- Resilience and vulnerability dimensions:
  - Social
  - Economic indicators:
  - Infrastructure
  - Environmental

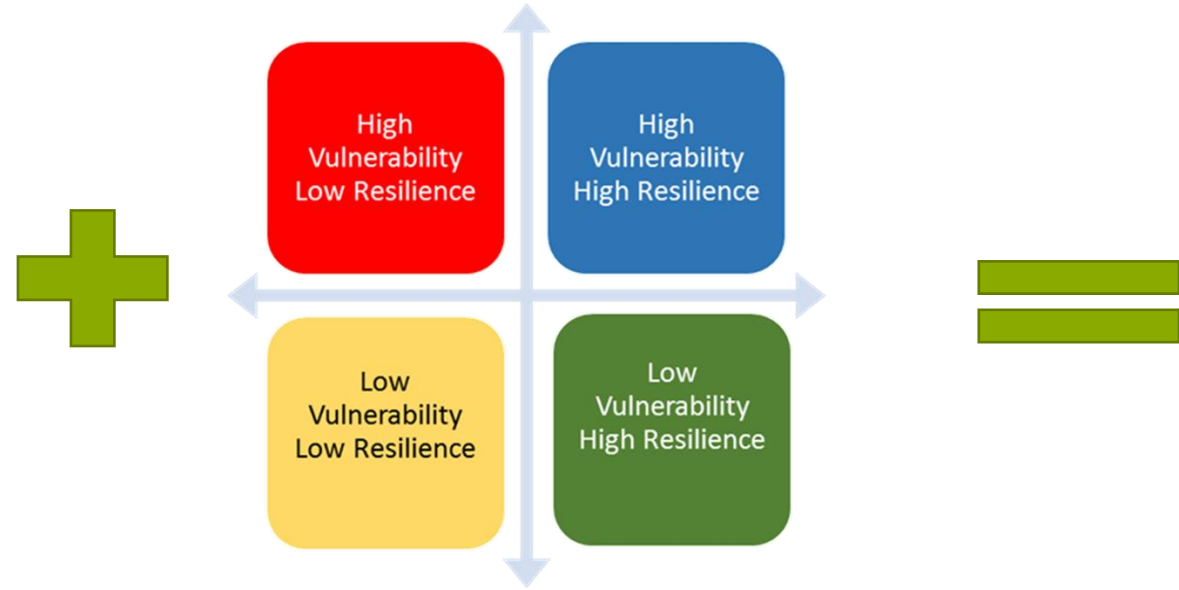

Economic Resilience	Economic Vulnerability
Economic Diversity	Reliance on natural resources
Entrepreneurship	Economic hardship – cost burdened
Active economy	Economic hardship – unemployment
Economic growth	Potential tax shortfalls (business vacancy rate)

# Resilience/Vulnerability Index

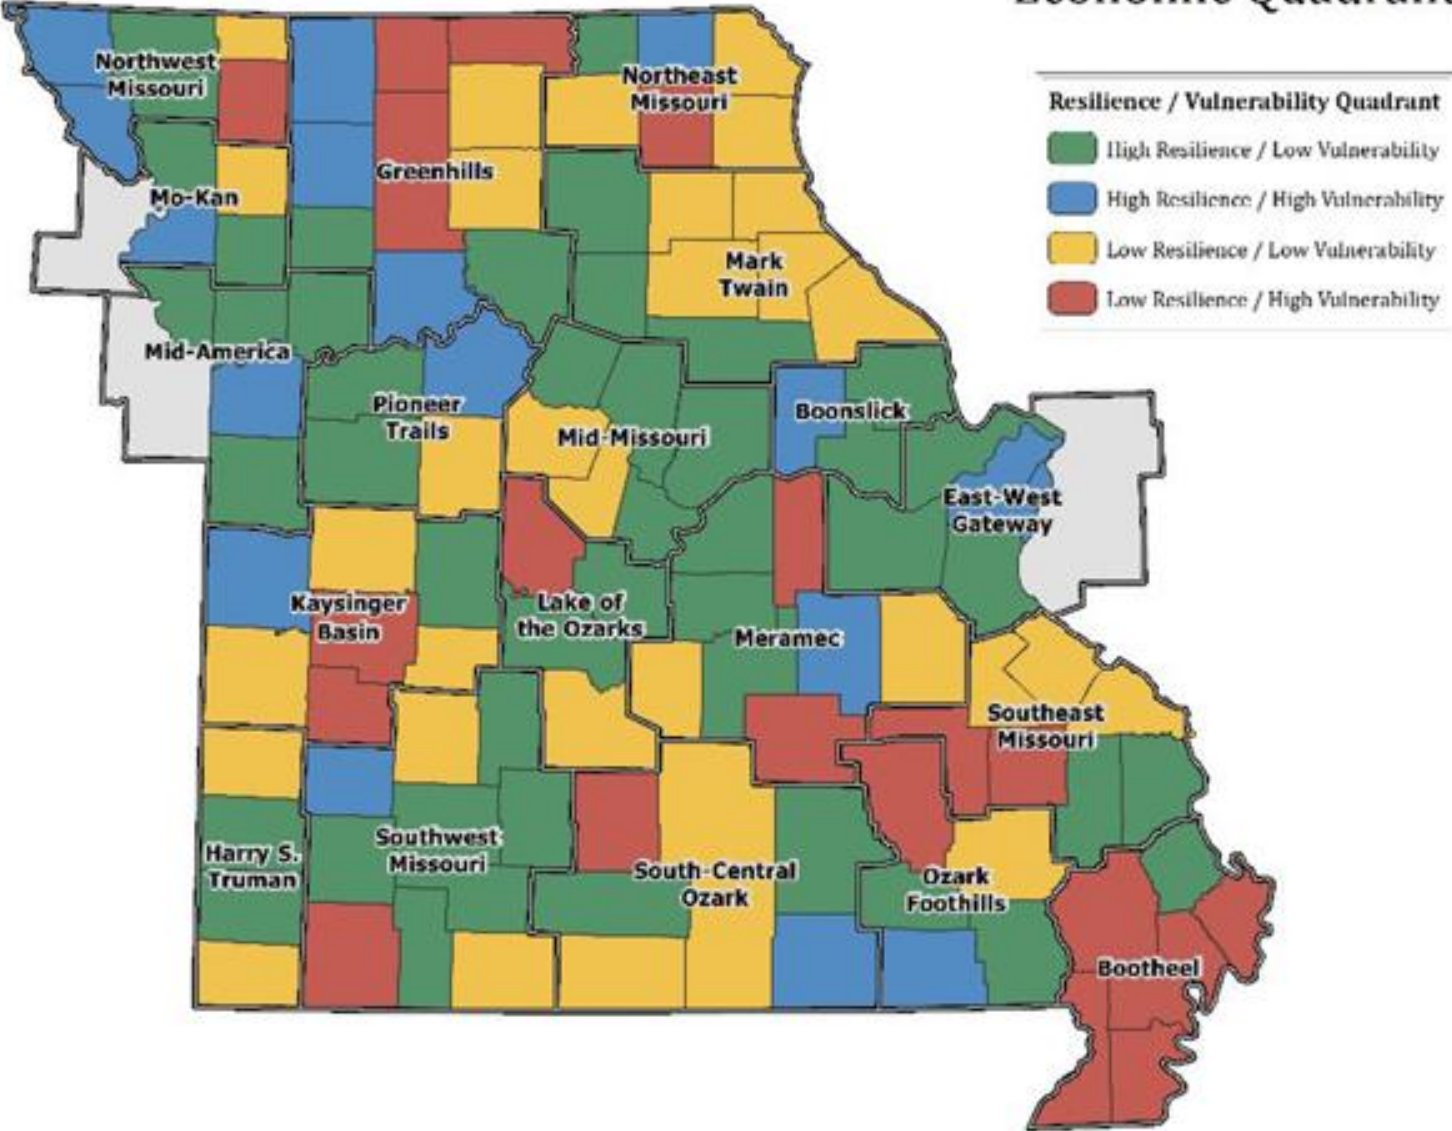

# Mapping Resilience:

Economic Resilience	Economic Vulnerability
Economic Diversity	Reliance on natural resources
Entrepreneurship	Economic hardship – cost burdened
Active economy	Economic hardship – unemployment
Economic growth	Potential tax shortfalls (business vacancy rate)

# Economic Quadrants

The Regional Resilience Framework provides  
data-driven answers:

## The Regional Resilience Framework provides data-driven answers:

- How to best allocate resources for disaster planning, response and recovery

## The Regional Resilience Framework provides data-driven answers:

- How to best allocate resources for disaster planning, response and recovery
- Where to target economic development resources and efforts to increase resilience

## The Regional Resilience Framework provides data-driven answers:

- How to best allocate resources for disaster planning, response and recovery
- Where to target economic development resources and efforts to increase resilience
- Ways to identify the economic risks and opportunities created by a changing climate

# The Regional Resilience Framework

A Tool for Policy Makers
